Meet new people while volunteering to make a difference in your local community. The area that we will be working on is located between **Burr St. and Chase St.** We will be collecting as much debris as possible and look for your help ensuring this natural resource is protected for generations to come. Local civic, community and youth organizations are encouraged to join up! We are enlarging our group daily and hope to see you there. Please call Keith at **1-219-276-6534** for more information. 8:30 am check in and briefing each day (but come when you can). Food and water will be provided. We are collecting resources - call to see what we still need.
