

**CITY OF GARY, INDIANA
PUBLIC NOTICE OF ESG-CV SUBSTANTIAL AMENDMENT
TO THE 2019 ANNUAL ACTION PLAN**

The following is a summary and language that amends the City of Gary's 2019 Annual Action Plan.

Background:

The City of Gary, Indiana's federal Consolidated Plan details the funding strategy for the Community Development Block Grant (CDBG), Emergency Solutions Grant (ESG), and HOME Investment Partnerships Programs, for the period between 2016 and 2020. The Annual Action Plan details each year within the 5-year Consolidated Plan and outlines the implementation of annual funding, which is developed through significant public input, analyses, and planning.

The City of Gary's Citizen Participation Plan (CPP) describes the efforts that the City will take to encourage its residents to participate in developing these plans. It also provides requirements for public process when a "substantial amendment" to the Annual Action Plan is proposed. The following changes constitute a substantial amendment and require public notice as described in the CPP:

- A significant change to an activity's funding priorities or procedures for distribution of funds
- Funding of a new activity not previously described in the Annual Action Plan
- Substantial change in the scope, purpose, location or beneficiary of an activity
- Increases by the greater of 10% change of the total allocation of the City for the year

However, due to COVID-19 the United States Department of Housing and Urban Development (HUD), in its memorandum of May 4, 2020, has issued guidance that ESG recipients have the immediate ability to omit the citizen participation and consultation requirements for substantial amendments and new consolidated plan submissions for ESG-CV funding. However, each grantee must publish how it has used and will use its allocation, at a minimum, on the Internet at the appropriate Government website or through other electronic media.

Additionally, HUD has awarded supplemental funding through the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) that requires programming in the 2019 Annual Action Plan.

Proposed Substantial Amendment

The City of Gary is proposing the following amendments to the 2019 Annual Action Plan in order to increase and/or decrease current proposed projects under the Emergency Solutions Grant (ESG-CV) funding established by the CARES Act.

Analysis

This proposal qualifies as a substantial amendment because it meets the criteria below:

- A significant change to an activity's funding priorities or procedures for distribution of funds

Reprogramming ESG-CV activities

In order to be responsive to the needs of the City of Gary in preparing, preventing, and responding to coronavirus and its impact on people at risk of and experiencing homelessness, the City of Gary will routinely reevaluate our funding decisions throughout the period of performance. Consistent with the terms of all subrecipient grant agreements or contracts, the City of Gary intends to reprogram ESG-CV funding between selected activities or to include additional ESG-CV activities if/when necessary, based on infection control needs and response efforts related to preventing, preparing and responding to COVID-19.

Summary of Activities		Project Description
Project Name:	Gary Health Department Temporary Shelter	The Gary Health Department's Temporary Warming/Cooling Shelter project has been cancelled due to the loss of air-conditioning. Funding remaining in the amount of \$78,466.25 will be reallocated to Administration (\$47,000); Rebuilding the Breach Ministries (\$14,523); and Gary Health Department Emergency Shelter Renovation Project (\$16,943.25). The temporary warming/cooling center will be funded with other funding sources.
